METER DOCTOR IS CAUGHT; CONFESSES

Gas Company Employee, Short of Funds, Tinkers Meter for Landlady; Expands and Strikes a Snag

When he was unable to meet his rent, A. E. Ganaway, meter tester and inspector for the Pacific Gas & Electric company, conceived the idea of fixing the meter of his landlady, so that her bills would be reduced by five-sixths.

Ganaway had successfully conducted this line of work in Los Angeles, and had only begun his operations in this city when arrested yesterday. He pleaded guilty of unlawfully altering a meter of the gas company in Justice DeSousa's court, and will be sentenced at 2:30 o'clock Monday morning.

Ganaway made his big mistake in putting the proposition accepted by his landlady to Dr. Francis H. Redewill, who accepted his offer and then notified the company. He agreed to pay the man \$10 for the "job," and set the time for 5 o'clock Thursday afternoon. His description of Ganaway was at once given to H. L. Allen, manager of the gas company, who found him to be one of his own employees.

Ganaway made a full confession to County Attorney Gandy. He said that he was in need of funds and had fixed hundreds of meters in Los Angeles without being found out. He stated that it was a simple matter for him to carry out his purpose, which he did by fixing the meter by ripping it open and cutting out five of the plugs. A little soldering made it impossible to discover that it had been tampered with in any way. Ganaway said he came here a month ago and has been employed by the gas company since his arrival from the coast. He was formerly a meter inspector at Fort Smith, Ark., and held the position for five years.

Marion Craig Wentworth, Creator of "War Brides" Appreciates Struggle of Women for the Ballot

Refusing to speak with a press representative unless assured that only "safe subjects" would be discussed, and that she would not be misquoted, Marion Craig Wentworth, a woman of quiet personality was in direct contrast to her very forcible "War Brides." She was one of the guests at the luncheon given by the Congressional Union yesterday, and was one of the most attentive listeners to the argument offered by the eastern envoys.

"I can appreciate what they say," said Mrs. Wentworth, "for I know the obstacles they have to overcome. It was brought to me forcibly when I attended a mass meeting in Tremont Temple in Boston after I had the privilege of voting in the west. Here, it is all so simple and natural, there they have to fight a terrible battle for their rights."

"Preparedness?" She shuddered at the mere mention. "When they talk of preparedness I talk of world federation. Let the people refuse to fight, let them protest as long as possible. This country is obsessed by the war spirit and behind it all is the big munition interests. The United States is hysterical," she declared.

Mrs. Wentworth with her small son, Brandon, has been in Chandler for several weeks. In a few days they will return to Santa Barbara where Mrs. Wentworth "registers." She has no definite plans for the future but she is willing to make public but since the little chap to whom she is devoted says he wants to live on the desert, it is quite probable that she will return to Arizona.

"Have I gathered any material while here? When something has been done we will see what has been gathered."

CHRISTIAN REVIVAL NOTES—Evangelist James A. Barnett preached a chart sermon, full of original thought and application from the topic, "Babel and Pentecost," at the Christian church last evening. It was unique in the application of two great historical events to represent the spirit of the world, or humanity with that of God. Mr. Fred S. Carter sang as a solo "He Lifted Me." Mr. Carter returned this morning to his work at Winslow. The choir under direction of Mrs. G. W. Houser, will present some special Easter music. Mrs. Houser will also sing a solo at the revival service tonight. Rev. Barnett will speak tonight upon "Christ in the Home."

FINAL NOTICE

Contest Closes May 15th

7,777 Prizes

First Prize \$1,000

What is the 7th Point?

From Maine to California, from Texas to Hudson Bay, millions of people have been asking "What is the 7th Point in Sterling Gum?"

In practically every town, city and village in the United States and Canada, the published six points of superiority have brought Sterling Gum fast-growing popularity.

But the seventh point still remains a riddle.

Point ⑦ What?

Now, we are offering liberal prizes to those who send us the best suggestions for the Sterling Gum Point 7.

Before you make your suggestion for the 7th Point, read the following:

The Following Story Unfolds the Secret of the Famous Point 7

To most people chewing gum is a mystery. They may know that different chewing gums are made from different ingredients. But that is about all. Here are facts which we believe you will be glad to know about Sterling Gum:

Your Sterling Gum is made from the following materials:

The basis is the pure sap of the tropical Sapota Tree—a natural gum.

This natural Sapota Tree sap is boiled, sweetened and flavored. The sweetening is simply pure cane sugar and pure corn syrup.

The flavoring is of two kinds—Peppermint (in red wrappers), Cinnamon (in blue wrappers).

There are some twenty varieties of the mint plant. The Sterling Peppermint is a product of the choicest, smoothest-flavored of these many mint varieties.

The spicy Cinnamon flavor is extracted from the Cassia bush which grows in the tropics.

The sap of the Sapota Tree, the cane sugar, the corn syrup, the Peppermint and Cinnamon flavors all come from the sap of some plant or tree. Nature herself supplies these delicious materials from which your Sterling Gum is made.

Requirements for Winning Phrase

When you read the above facts on the materials that Sterling Gum is made of, you will know all that it is necessary for you to know in entering this contest.

The first prize will go to the one whose suggestion, based on the above story, most impressively presents the natural purity of Sterling Gum—in the opinion of the judges.

Remember that your suggestion must be in six words or less.

The next best suggestion will win the second prize—and so on down.

It is understood that the Sterling Gum Company will have the right to use the 7th Point suggestions sent in by the prize winners.

The contest is easy to enter. Just think out your way of expressing the 7th Point. Then write it out in six words or less and send it in as directed in the conditions printed below. Even if you don't win the first prize of \$1,000, you stand a chance to win one of the 7,777 smaller prizes.
